Special Provision for Work Zone Traffic Control

August 5, 2005

This special provision was developed by the Bureau of Design and Environment to establish pay items for new Traffic Control and Protection Standards. It has been revised to delete the pay item for Highway Standard 701400. Industry made this request at the May 11, 2005 Joint Coop Meeting explaining it was more difficult to bid as a separate item.

This special provision should be used on all contracts involving Highway Standard 701421, 701422, 701423, or 701446.

The districts should include the BDE Check Sheet marked with the applicable special provisions for the November 18, 2005 and subsequent lettings. The Project Development and Implementation Section will include a copy in the contract.

This special provision will be available on the transfer directory August 5, 2005.
